

Dear Friend,

The present "Great Recession" was caused by the recklessness and greed of a handful of Big Banks and Wall Street. As a result of their unlimited greed millions of Americans have lost their homes, their jobs, their savings, even their pensions. Instead of bailing out the American people, our government bailed out the "too big to fail" banks, who caused the problem in the first place, with literally trillions of taxpayer dollars. Then these big banks used our money to give themselves millions of dollars in personal bonuses. It's time to let Congress and the President know that we're mad as Hell and we're not going to take it anymore!

Well, you don't have to take it anymore! The way out of this recession and back to prosperity is here! Under legislation just introduced in Congress it would be possible to send every worker in every American family a check for \$5,000! This check would go to everyone with a valid Social Security card, who is either working, trying to find work, or already retired. In addition, this legislation would be able to create millions of good paying jobs rebuilding our badly decayed public infrastructure.*

"National Emergency Employment Defense Act of 2011", HR 2990, was just introduced in Congress by two time Presidential Candidate Congressman Dennis Kucinich, who is working for us, not the big banks, and he now needs the support of every one of us.

THE WAY OUT OF THIS RECESSION IS NOW IN YOUR HANDS.

Here is a step by step list of what we ask you to do:

Step #1: Within the next 48 hours call your Congressional Representative and your two U. S. Senators and leave a message that you want them to support the National Emergency Employment Defense Act of 2011, H.R. 2990. (If you do not know the name, address and phone number of your members of Congress, call your newspaper, library or Chamber of Commerce and they can tell you.) Here's a link that will also help find them:

<http://www.contactingthecongress.org/>

Step #2: Within the next 48 hours also write a followup letter to all three of them asking for their support of The National Emergency Employment Defense Act of 2011 of 2009, (H.R. 2990) and stating, in your own words, why this legislation is critical to our economic recovery. You could simply state that it is time to take away the power the Big Banks to create and issue our money in the form of interest bearing debt and give that power back to the federal government so it can spend money into circulation to put money back in the hands of the American people and to rebuild our country. The "too-big-to-fail" banks have certainly proved they cannot be trusted with this power. It is time to take back control of our own money!

Step 3: After you have done steps one and two, please forward this email to everyone on your personal email list and ask each of them to the same as you have already done. Ask them to forward this email to everyone on their personal email lists. The more letters to Congress, the more likely this legislation will pass. We must have a massive grassroots campaign in support of "The National Emergency Employment Defense Act of 2011."

A personal letter in your own words will get their attention. Sending a petition or a form letter will not. Your voice really does count, your voice will be heard, and your participation in this grassroots drive is absolutely critical to its success. It is in the best interests of everyone to keep this email letter going. You will be helping both your country and your family by accepting those \$5,000 checks because the primary reason for any recession is a shortage of money in the hands of the American people, and the way out of recession is to put more money in their hands, which is what "The National Emergency Employment Defense Act of 2011" is designed to do.

Thank you in advance for your help.

(Be sure to list your own name and phone number here in place of mine before you forward this to everyone on your own email lists).
