

SAMPLE LETTER TO EDITOR

Newspaper, magazine, blog, etc.

Dear Editor:

Our economy is in shambles. Is it necessary to repeat a litany of the problems of poverty, unemployment, crumbling infrastructure, environmental destruction, war, and ponzi scheme finance brought to you by Wall Street and the Federal Reserve Banking System?

There is good news! The National Emergency Employment Defense Act of 2011, NEED Act, was introduced into Congress September 21, 2011. Full text of the can be read at: <http://www.govtrack.us/congress/billtext.xpd?bill=h112-2990>

This Act provides the means to achieve a full employment economy, pay off the national debt, renew infrastructure without adding debt, and provide needed government services without the burden of interest. It does this by returning the power of Congress to coin its own money as provided by the U. S Constitution.

The big banks got bailed out, now let's bail out the American people.

Congress gave away our money, now Congress can take it back by passing the Need Act 2011.

This Act will relieve us of the impossible task of trying to borrow ourselves out of debt.

Appropriate closing.

##

#Additional talking points to be used when appropriate:

Direct, tax free, grants to "bail out" the people.

Direct annual grants to states.

Interest free loans to local jurisdictions such as cities, counties, school districts, etc.
